ÖMER ERDEM

SOFTWARE ENGINEER

Age: 22

Area: Amsterdam, The Netherlands

Email: m.o.erdem@outlook.com

ABOUT ME

I am a hardworking web- and software developer student who is every day in search for new projects and challenges to improve my skills to eventually become a Full Stack Developer. I am really passionate in programming and would not mind to get my hands dirty again. I am eager to learn new techniques and I am surely not afraid of hardware. I am someone who likes to make the world a better place, even if it goes unnoticed. My name is Ömer and thank you for showing your interest.

EXPERIENCE

FEB 2020 - AUG 2020
Intern Magento Developer
Bold Commerce

Aimed at improving both my frontend and backend development skills, as well as communication skills with my colleagues and customers. Have worked in a real Agile environment and created a new Dashboard for the Support Team. The new skills I have learned are: Magento 2, Laravel, SASS, Vue.js 2 and Knockout.js.

FEB 2018 - JUN 2018
Intern Frontend Developer
DiGidot

Aimed at improving my frontend skills by creating a Web Installation panel for the DiGidot C4 hardware controllers. Designed and developed the installation panel in HTML5, CSS and JavaScript and worked with API calls.

SEP 2016 - JAN 2017
Intern Game Developer
Kenneth & Koh

Aimed at improving my teamwork skills, as well as learning to work in a company setting. Improved my programming skills by creating a mobile and desktop game in Unity with C# and helped the developer team in testing their software.

JAN 2015 - PRESENT
Cashier
Deugd Erdem

Worked as a cashier with a 0 hour contract to improve my communication skills with customers, while earning some pocket money and expanding my network.

EDUCATION

SEP 2018 - PRESENT
Software Engineering
Amsterdam University of Applied Science

Aimed at improving my skills in programming and in the business field, as well as expanding my network and keep having fun with my hobby projects. The new skills I have learned are: Java, NoSQL, Angular, TypeScript, Kotlin and Android Development.
SEP 2015 - JUN 2018
Application Developer
Regio College Zaandam

Aimed at getting started with programming and mastering the teamleader role for grouped projects. The new skills I have learned are: Leadership, HTML5, CSS3, JavaScript, C#, PHP, MySQL and ASP.NET.
